PROFESSIONAL EXPERIENCE

IBB Isfalt A.S. • IT Assistant Specialist   **Jan 2025 - Continues**
Currently, at İBB İsfalt A.Ş., I am responsible for maintaining the company's network systems and ensuring their security and efficiency. I focus on optimizing network performance, troubleshooting issues, and providing IT support. Additionally, I contribute to the development of internal web applications, applying the latest technologies to enhance system performance. My work involves continuously improving IT processes to streamline workflows and ensure smooth operations across the organization.

Kınay Lojistik • IT Assistant Specialist   **Sep 2024 - Dec 2024**
At Kınay Lojistik, I worked in network management and software improvement, similar to my role at Beşiktaş JK. My responsibilities included ensuring the security and optimization of network infrastructure, along with troubleshooting and resolving issues. I also contributed to web development projects by designing and implementing solutions to improve internal systems and business processes, helping to increase overall efficiency.

Besiktas JK • IT Assistant Specialist - ERP Assistant Specialist   May 2023 - Sep 2024

In my role as an Assistant Specialist, I was responsible for maintaining and optimizing the company's network infrastructure. I focused on ensuring network security and improving performance. I also designed and developed user-friendly web applications using HTML, CSS, and JavaScript, which streamlined internal workflows. Additionally, I contributed to software development projects aimed at increasing overall productivity. My project management skills enabled me to lead successful initiatives, improving IT systems and processes within the company.

Besiktas JK • Information Technologist Intern   Mar 2023 - May 2023

During my internship at Beşiktaş JK, I gained hands-on experience in software development, network systems, and hardware management. I worked closely with my team to optimize the company's network processes, leading to significant time savings through the development and implementation of new methods. This experience allowed me to enhance my understanding of IT infrastructure while honing my problem-solving skills.
